Introduction:

My name is Stephanie Cemo and live in San Diego, CA. My love affair with the track began 9 years ago with a trip to Houston Raceway Park with my brother. This led to an 8 month love affair with drag racing. Then, a friend of mine invited me to Texas World Speedway to go road racing and I jumped at the opportunity! In a period of one weekend, I advanced from the beginner group to advanced and was hooked. After only 3 short months, I was asked to be a driving instructor and I took it ... free track time! I have had 4 corvette's over the past 10 years and currently own a 2010 Corvette ZR1 that is stock, but not for long.

Goals:

I have begun taking the steps to take my racing further than track days. Eventually, I would like to race in a competitive series such as NASA or SCCA T1. I am looking for a partial sponsorship with JRi Shocks because it is my understanding that you guys make the best shocks on the market! Since I am a fast female and very active in track events, I feel that I will be a good outlet to market your brand. Not to mention, through the gain of faster lap times ... I will personally be able to say first hand that I have seen the benefits of JRi Shocks.
