

Installation Instructions

Part Number: SU-8005

This Filter Fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have just purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N air filter seals properly.

INSTALLATION:

1. Remove the stock air filter.
2. Remove the stock gasket from around the stock air filter and install on the K&N Air Filter. (Fig. 1)
3. Remove the stock inlet tube and install it into the K&N Air Filter. (Fig. 2)
Note: On the back of the K&N Air Filter there are two locator bumps to line up the inlet tube. (Fig. 3)
4. Install the K&N Air Filter into the air box making sure it is completely seated.
5. Reinstall the air box cover and tighten the screws.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
