Tuning.**CAT. Cars** No adjustments required

An increase in fuel mixture may be required if further modifications are carried out.

Filter Maintenance.

Under normal conditions clean and reoil the filter at approx. 40,000 miles / 65,000km.

Use only K&N cleaner and oil and follow the instructions carefully.**K&N filters are pre-oiled ready to fit****The advantage of K&N's cold air intake system.**

Cooler air being denser, will show positive improvements in power over filter systems that draw hot air from the engine bay.

FITTING YOUR OWN 57i KIT

If not **it is essential** that the person fitting the kit (e.g. mechanic) **carefully follows these particular instructions** even if he has fitted K&N kits before. This will save you both time and money. kits incorrectly fitted may show a loss in performance e.g. the positioning of the essential cold air hose, (flexi expandable and rubber hoses are used).

A final check under the bonnet, by yourself with the instructions, would seem sensible
