Intake System Display Assembly Instructions

1. Position display panel between heat shield and intake tube.
2. Insert both 1.5" screws from the heat shield through the display panel and intake tube.
3. Attach wingnuts to screws and tighten each evenly and securely.
4. Attach air filter to intake tube and tighten hose clamp using a flathead screwdriver.
5. The finished product can now be attached to the shelf.

Air Filter Replacement Part No. RC-4630
