Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N® air filter seals properly.

### INSTALLATION:

1. Remove the stock filter from air box.
2. Clean any dirt or debris inside of the air box.
3. Insert the K&N® air filter into the air box.

**NOTE: Filter will only fit one way. Pull tab on the filter will be towards the back of the ATV (Fig.1)**

4. Install air box lid.

**NOTE: When installing air box lid, make sure marks on air box and lid align properly (Fig. 2)**

5. Tighten wing bolts securing lid onto air box.

**THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.**
