K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10 year/Million mile limited warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Depending on your model, it may be necessary to move the windshield wipers to an upright position to be able to remove the cowl.
2. Open hood of vehicle.
3. If necessary, unclip and move out of the way the washer fluid hose located on passenger side to access the cowl.
4. Peel the weatherstrip back to the center of the car. Fig. 1
5. Remove cowl from firewall. **NOTE: On some models these may be push rod clips, screw cap clips or bolts holding the cowl.** Fig. 2&3
6. After removal of the cowl, some models may have a secondary panel that needs to be removed. Fig. 4 & 5
7. Remove dirty cabin filter. **NOTE: Remove any debris that might be present inside the cabin filter ducting.**
8. Install K&N® Cabin Filter. Fig. 6
9. Reverse steps 1-6 to complete cabin filter installation. With the cabin filter installed, clean an area on the cowl and apply the K&N® Stop Decal. The decal will help notify others that this is a re-usable cabin filter.
